Welcome to our new SmileCo Dental Newsletter! We look forward to providing you with clinic updates, handy hints and information about our fantastic team.

You asked us to be open for longer hours and we have listened:

We are excited to announce we are NOW OPEN from 8am to 8pm Monday to Friday and 8am to 5pm Saturday

We have dentists and hygienists available at times which are more convenient to you, our patients, and you are welcome to book appointments now.

We are a NO GAP clinic*
What does this mean?

If you have private health extras cover and haven't seen a dentist for 6 months then we waive the gap* for check-ups, cleaning, routine x-rays, fluoride treatments and polishing. At SmileCo Dental you receive two FREE check-ups and cleans each year* with your private health cover.

It's that simple! Just call us today and book your appointment.

*Call us for terms and conditions

**Whiter.
Brighter.
You.**

We are thrilled to bring you what may be considered to be the **LOWEST** Whitening Prices in South Australia.

Take Home Whitening Kit was \$617
NOW \$299

In-Chair Professional Whitening was \$750

To make an appointment please call us on 8332 8292

What SmileCo Dental can offer you

- Our HICAPS billing system allows us to claim directly from the health fund which leaves you with a minimal gap to pay on the day.
- If you don't have a health fund you are still welcome at our clinic. We refer to the recommended ADA fees to assist us in determining the fees which are always competitive.
- We have the latest digital x-ray equipment which provides our patients with 70% less radiation.
- If you haven't seen our brand new, state of the art chairs pop in and ask for a demonstration!

DID YOU know?

We have Dentists and Oral Health Therapists who love to help kids with their dental treatment and are qualified to see children of any age.

Our NO Gap* policy also applies to children.

We take the time to settle your child, help them feel comfortable, explain what we are doing in a friendly and age appropriate manner and then make sure they have the best experience possible. Every child receives a new toothbrush to take home and the little ones can pick a sticker too!

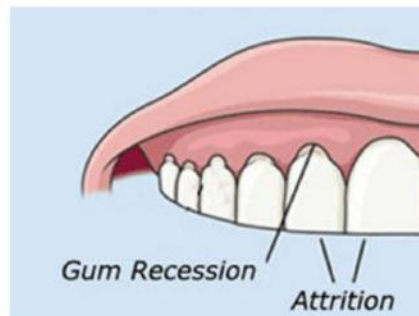

Wisdom teeth causing you concern?

We have a special X-ray machine called an OPG on site to help identify problems and it is Gap Free when you book an appointment.

An OPG is a panoramic x-ray of the lower face, which displays all the teeth of the upper and lower jaw and is used for the assessment of wisdom teeth.

Please book an appointment with our friendly team for a Gap Free check-up, clean and wisdom teeth assessment.

Do you Grind your Teeth?

Dr John Berketa has been a dentist for over 30 years. His particular interest is in restoring extremely worn dentitions back to a functional eating network as well as presenting a more pleasant looking smile. If you feel you grind your teeth and wish to discuss possible treatment please call for an appointment.

We do in-chair teeth whitening too!

If your teeth aren't as white as you would like then book a Gap Free consult with our bleaching specialists.

Dental bleaching is a common procedure as adult teeth gradually darken over time. If you are suitable, it is a simple 2 hour appointment to sparkling white teeth. Our bleaching specialist will take impressions of your teeth, give them a scale and clean and then apply a whitening gel for 8 minutes. This process is repeated a few times throughout the session and the result should last for at least 12 months. We pride ourselves on the quality of our Whitening Service and offer excellent prices to all patients.

Want straighter teeth? Have you considered Invisalign?

Invisalign is an alternative to braces where the comfortable and virtually invisible treatment consists of a series of clear, removable aligners. These aligners are changed fortnightly and are individually manufactured for your teeth. Throughout the process, your teeth will gradually move - little by little, week by week - until they have straightened to the final position prescribed by your dentist.

Please call us to book a consultation appointment with Dr Louise Cooper or Dr Caroline Petroff for further information about the treatment and procedure.
